

Screen Net

Wire netting is mainly used on windows and doors to prevent insects. Also it is used for industrial purposes; sieves filters and others. XTL wire netting exported by our corporation is well known because of their superior quality.
(fine weaving smooth surface, uniform mesh)

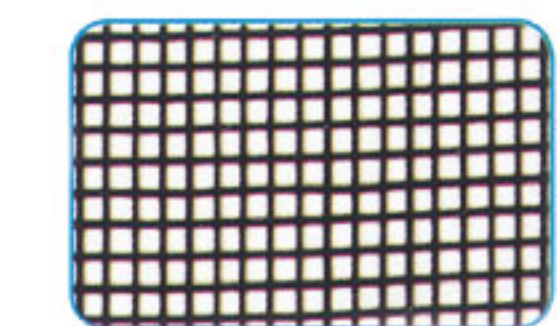

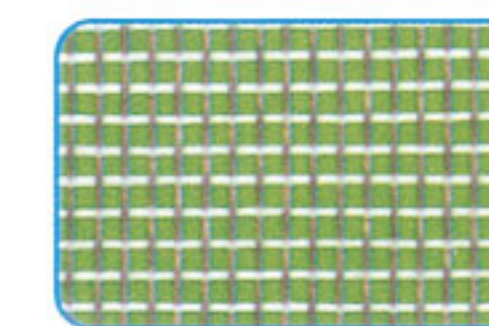

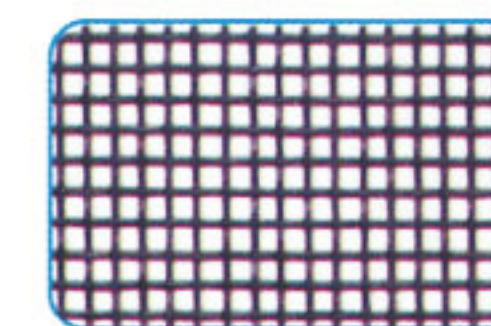

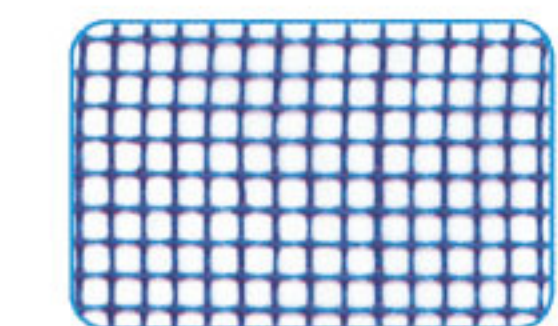

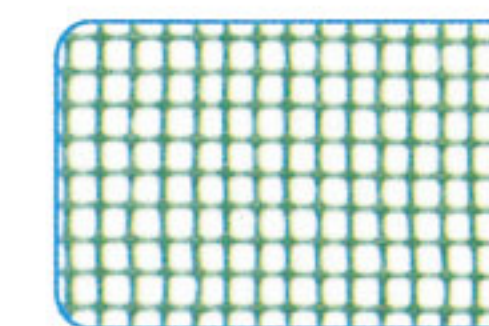

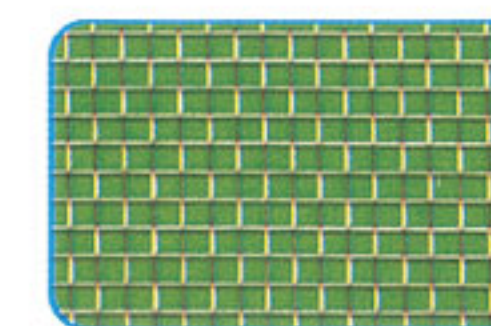

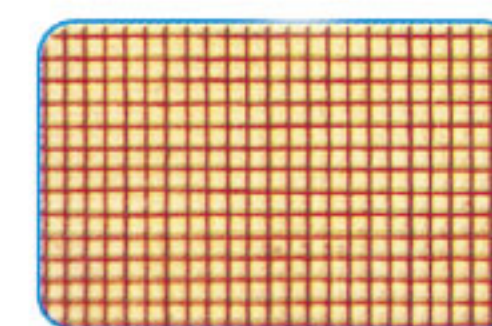

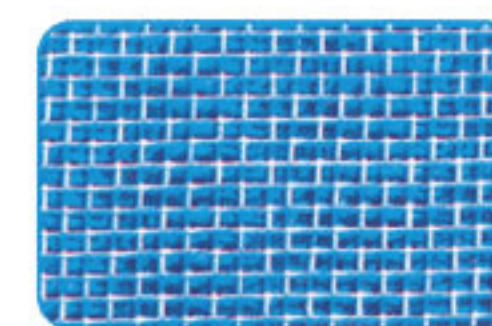

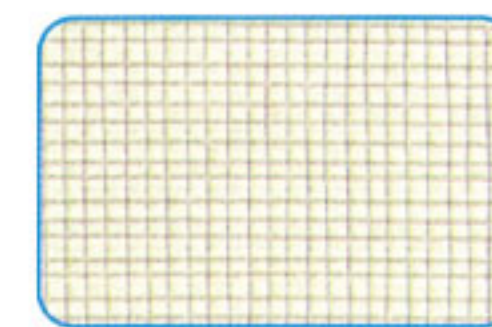

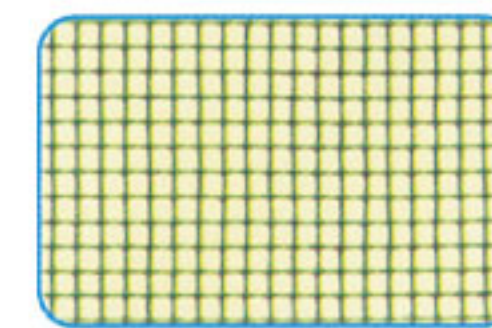

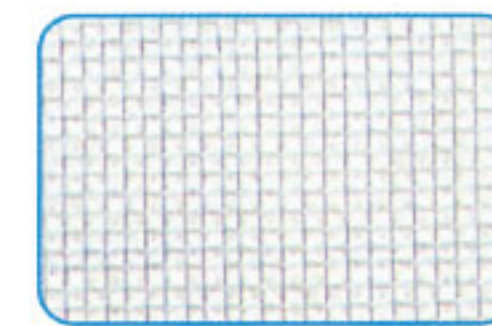

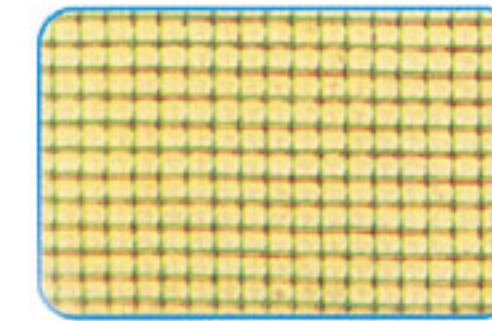

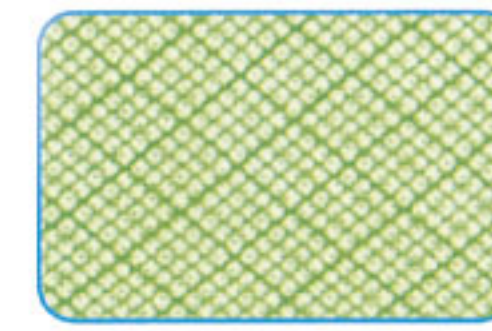

Assortments available

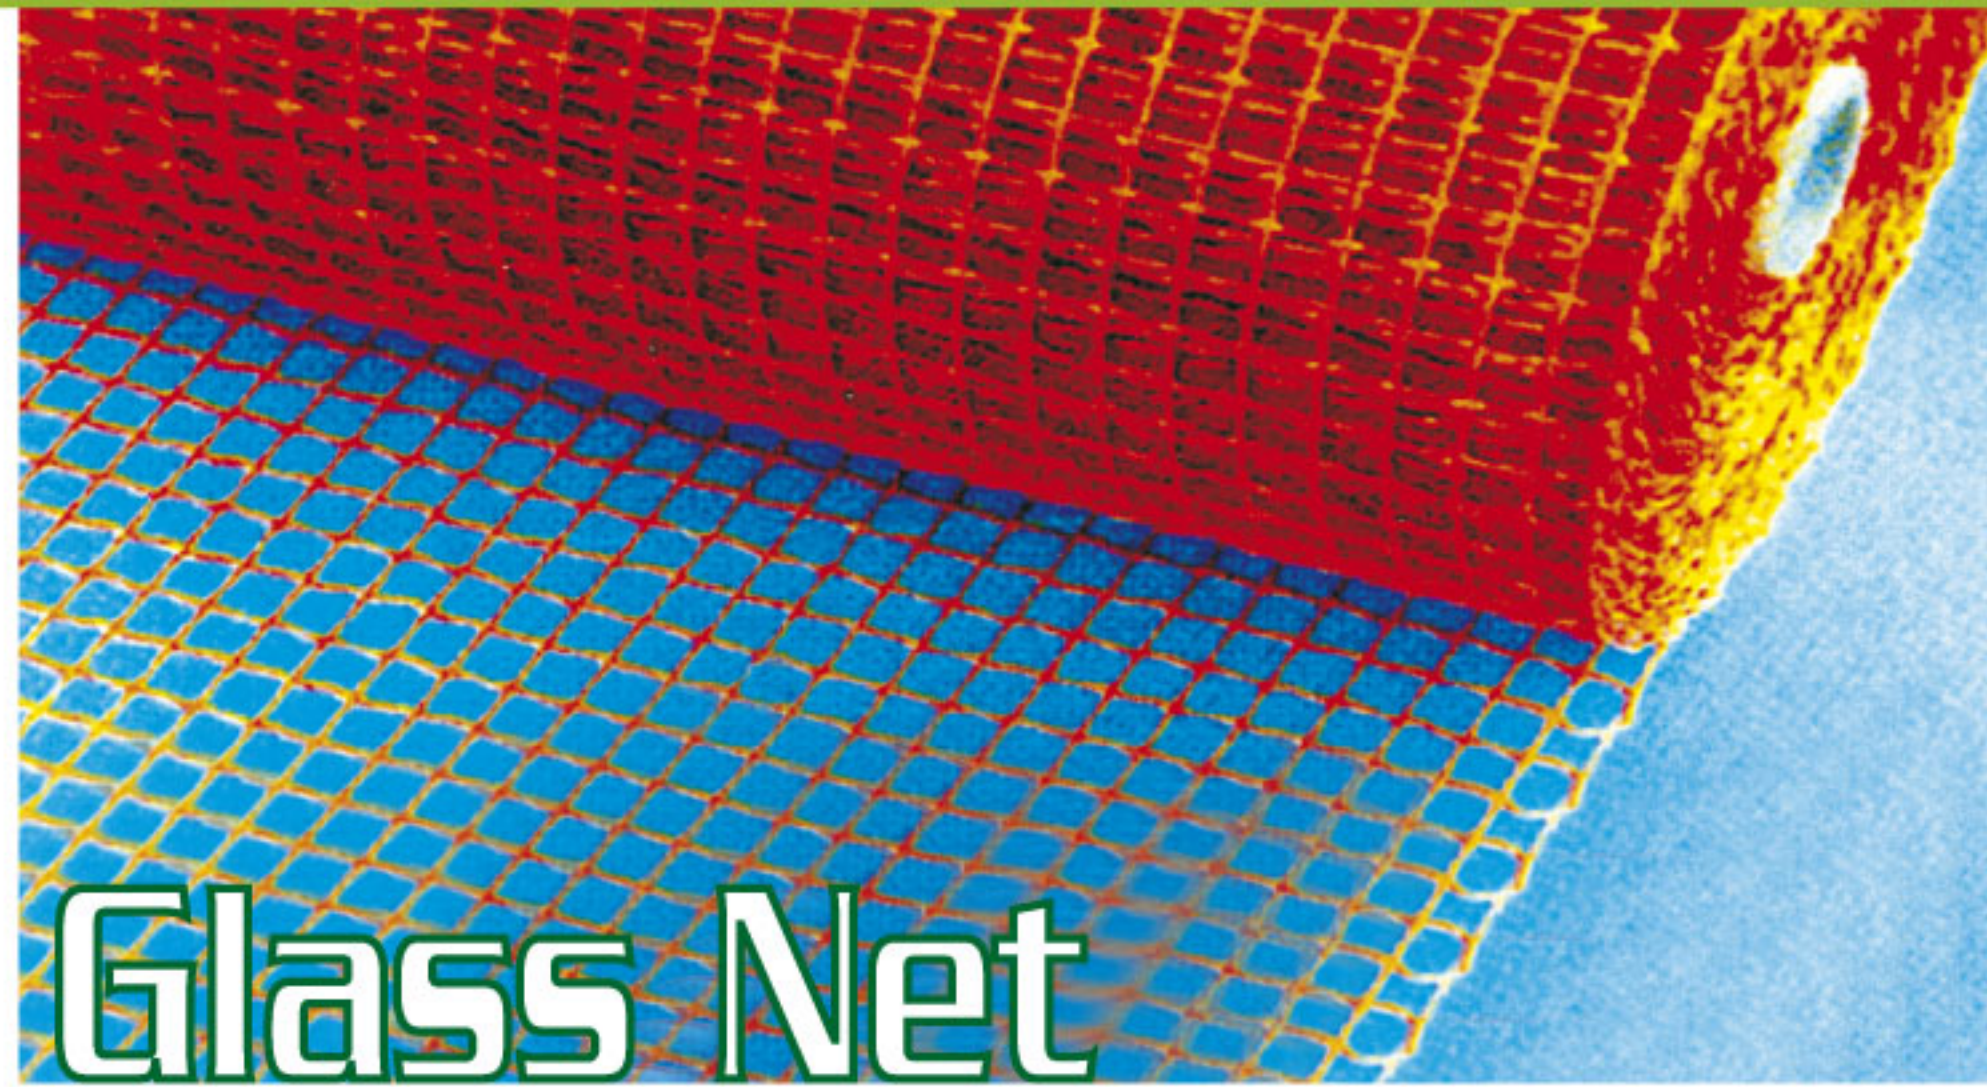

- Plastic wire netting
- Plastic coated iron wire netting
- Fiberglass wire netting, plastic coated after weaving
- Fiberglass wire netting, plastic coated before weaving (American type)
- Galvanized iron wire netting
- Enamelled iron wire netting
- Aluminum wire netting
- Sprayed aluminum wire netting
- Stainless steel wire netting

Packing: in rolls, then packed in carton, special packing may be arranged upon request.
Remark: sizes other than those above mentioned may be made to order after consideration.

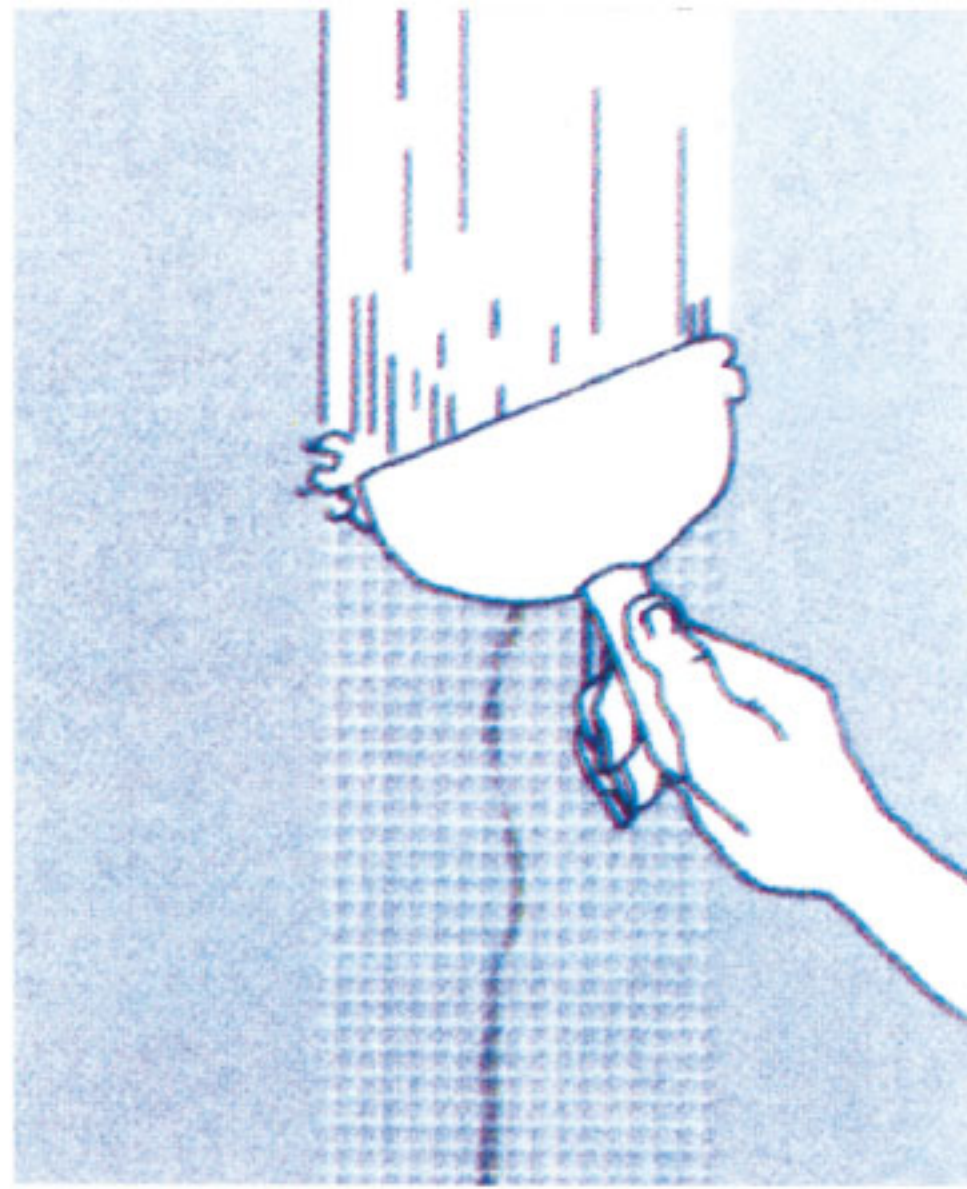

Fiber Glass Net

Alkali-Resistance Netting

The fiber-glass alkali-resistance net is made of the woven fiber-glass fabric, then coated by acrylic acid copolymer liquid. This net is of good alkali-resistance, high strength. It is widely used in wall reinforcement, out-side wall heat insulation, roof waterproof. It can also reinforcement; plastic, marble etc...

MESH	WEIGHT PER M2(GEAMS)
10x10	60
